

**SYSTEM, METHOD, AND COMPUTER PROGRAM PRODUCT FOR
EXECUTING SCRIPTS ON MOBILE DEVICES**

5

Abstract

Described herein are systems, methods, computer program products, and combinations and sub-combinations thereof, for executing scripts that can be loaded on mobile devices (as well as other types of devices), and for users of mobile devices to interact with such scripts on their devices in an interactive manner. According to embodiments, the present invention performs script operations for mobile devices including steps for sending a request for an object and a list of support languages, and receiving the object and any related scripts in the supported languages.
